Protection for You with Living Benefits

Accelerated Death Benefits for terminal, chronic and critical illnesses are automatically included in your policy at no additional premium. They give you flexibility and options to accelerate a portion of your death benefit in the event of a serious illness or accident. The amount you would receive would be determined based on the qualifying event and the specified amount of your policy. Once you qualify, your life expectancy does not reduce or discount how much of your policy's death benefit you can receive.

Benefit	Amount Available	Guaranteed Lump Sum Amount for Qualifying Conditions
Terminal Illness	75% of \$1,000,000	\$750,000
Chronic Illness	50% of \$1,000,000	\$500,000
Critical Illness	25% of \$1,000,000	\$250,000

The accelerated death benefit will be paid in a lump sum for a critical or terminal illness. Chronic illness payments can be made annually up to limits declared each year by the IRS (IRC § 7702B); exceeding the per diem limits could cause significant tax consequences. Please consult your tax advisor for full details.

Remaining Death Benefit after Living Benefit Acceleration

Once a living benefit claim is taken, the policy death benefit is reduced by the acceleration amount paid plus accrued interest. The death benefit will also be reduced by any loan balance and partial withdrawals taken after first accelerated benefit request. The death benefit will never fall below 10% of the specified amount as of the first accelerated benefit request. You are required to continue to pay at least the minimum premium necessary to keep the base policy and any attached riders in force.

Meet Kelly & the Impact of Living Benefits

Kelly exercised the Critical Illness benefit to help pay medical bills, the mortgage and other daily living expenses. Without the money from this benefit, Kelly would not have had enough to cover many of these expenses.
